NovaDesk - Product FAQ

About NovaDesk

NovaDesk is a cloud-based customer support helpdesk sold by NovaTech Solutions. It lets teams manage customer tickets from email, chat, and web forms in one place.

Pricing and Plans

NovaDesk has three plans. The Starter plan costs USD 15 per agent per month. The Business plan costs USD 39 per agent per month. The Enterprise plan has custom pricing and requires a minimum of 50 agents. All plans include a free trial of 21 days, and no credit card is needed to start the trial.

Refunds are available within 30 days of the first purchase. After 30 days, payments are non-refundable.

Reliability and Data

NovaDesk guarantees 99.9 percent uptime for Business and Enterprise customers. Customer data is stored in data centers in Mumbai and Frankfurt. Customers can choose their data region when they sign up. All data can be exported in CSV format at any time.

Support

Starter customers get email support on weekdays. Business customers get 24x5 chat and email support (24 hours a day, Monday to Friday). Enterprise customers get 24x7 support and a dedicated account manager.

Integrations and API

NovaDesk integrates with Slack, Microsoft Teams, and Jira. The API rate limit is 100 requests per minute on the Starter plan and 1,000 requests per minute on the Business plan. Enterprise customers can request custom limits.
